

DAYS 5 & 6

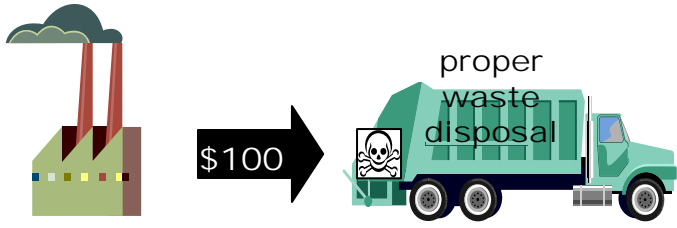

NEW

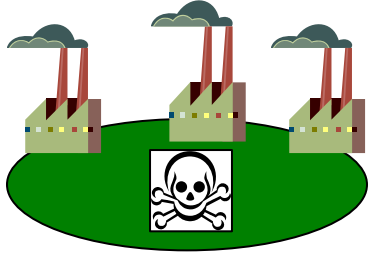

The government has passed a NEW law to try to stop companies from polluting.

Now, all companies are responsible if any company decides to pollute.

The cost of disposing your waste properly remains the same (\$100),

= \$500 each

but now if the lake is polluted, ALL companies have to pay \$500, a half day's profit.

No one will know which company polluted, but ALL companies will have to pay \$500 if ANY company pollutes.

Please decide how you would like to dispose of your waste.
